Hi Langze,

Thankyou for your email. What you have outlined all sounds great. The main thing for us is the admin dashboard for easy content addition, editing, and removal. We want the content and links to be user friendly without too many clicks to get to where the customer needs to go.

We would like page logins for members to input their information and also staff/tutor logins for attendance tracking but I know this isn't your area.

As long as it is user friendly and easy to navigate we are open to your ideas and recommendations also.

We aren't too sure about needing a search function as we want content to be readily available to easy to find without the use of a search function so we may need to come back to you on that.

Hope I've been able to give you a bit of clarity but if there's any other questions please be in touch.

Thanks,

Kind Regards,

Cat Beed

Hi Cat,

Thank you for your prompt response.

I'm glad to hear that our initial outline aligns with your expectations. We understand the importance of a user-friendly admin dashboard, and we'll make it a priority to ensure that content management is as straightforward as possible. We'll also work diligently to design the site's structure so that users can access the content they need with minimal clicks.

Regarding the member and staff/tutor logins, I'll communicate this with the respective teams to ensure seamless integration when our sections come together.

I take note of your feedback on the search function. We'll focus on making the content easily accessible, and we can discuss the necessity of the search function later as the development progresses.

Your feedback indeed provides clarity, and we appreciate your openness to our ideas and recommendations. We'll make sure to keep you in the loop as we make progress and might reach out for further insights. We had create a sample content page attached below, feel free to provide feedback on it.

Please don't hesitate to share any other thoughts or concerns you might have in the future. Your continuous feedback ensures that we're on the right track.

Thank you for your collaboration.

Best regards,
Langze Lu

Hi Cat,

Thank you for providing the updated City of Kingston logo. I've received it and will ensure that it's incorporated into the website as required.

Let me know if there are any other changes or updates needed.

Best regards,
Langze Lu

Hi Cat,

I hope you are doing well, I just want to let you know that we have already finished the homepage of the website, and we want to make an appointment with you to check whether the design/layout structure meets your needs and we have some additional questions to clarify with you.

We think is the best to do a site visit with you instead of having a Zoom meeting for better understanding, and is tomorrow available (morning time around 10-11)?

We are looking forward to collaborating with you further.

Thanks,

Best regards

Hi Cat,
We are currently working on the final stage of the contact section, We finished the map function but we need the google map API key the test it, will you be able to provide that for us?

Thanks

Kind Regards

Hi Langze,

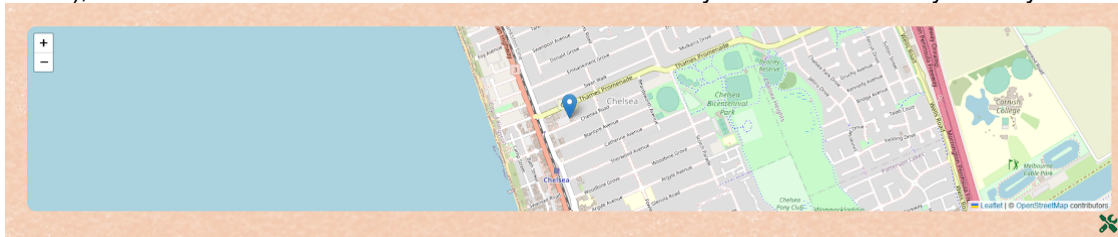

I think on our website its done through the google map third party extension so I have no way of finding the API key test? Sorry

Hi Cat,
That's what we have so far, if you still want something different, we can make adjustments base on these colours:)

Thanks

Kind regards
